G. O. P. Policy of Silence Aids Cox, Roosevelt Says

Crawfordsville, Ind., Oct. 14.—Opening a three-day campaign in Indiana here today, Franklin D. Roosevelt, Democratic Vice-Presidential nominee, declared there was a "revolt of silence" in the Republican party because of Senator Harding's "vacillating policy" on the League of Nations and that this would insure the election of Governor Cox next month.

"A few prominent men have come out openly and said that though Republicans they would not support Senator Harding," he declared. "Their number is small compared with the hundreds of thousands who are saying nothing, but who will vote quietly and unostentatiously for Governor Cox on election day. They believe in real leadership and are disgusted with Senator Harding's attempt to hold in line people of diametrically opposite views."

LEVER ACT UNDER FIRE AGAIN

Pittsburgh, Oct. 14.—Anguing that the Lever act is unconstitutional because it exempts farmers and dairymen from prosecution for violation of the section limiting or obstructing transportation facilities counsel for George W. Yount, George A. Howe and William O. Taylor, railroad men, today in Federal Court resisted their extradition to Illinois.

Assistant United States Attorney Horne asked the Court to issue an order of removal which would enable the Government to take the men to Chicago, where, he said, they are charged with conspiracy to violate the Lever act by refusing to move trains carrying necessities during the recent railroad strike. Counsel for the accused men said that one of them never had been in Chicago, and that all were residents of Pennsylvania. A decision is expected today.

DANSEY CHILD'S DEATH AN UNSOLVED MYSTERY

Mays Landing, N. J., Oct. 14.—The death of little "Billy" Dansey one year ago passes into the list of unsolved hysteries by the action of the Atlantic county grand jury in casting out the murder charges preferred months ago against Charles D. White and his housekeeper, Mrs. Edith L. Jones. Prosecutor Gaskill today said he was satisfied to have the accused freed from bail bonds they were obliged to provide at the time of their arrest. With his formality the case is ended, so far as his office is concerned, he said.

McADOO SAYS HE WOULD QUIT PARTY FOR LEAGUE

Connellsville, Pa., Oct. 14.—W. G. McAdoo, campaigning for the Democratic party, entered the coke country of western Pennsylvania yesterday and made a number of addresses in which he urged ratification of the league of nations covenant. Mr. McAdoo in his address here described the document as "one of the greatest ever conceived by human minds," and declared that "if James M. Cox were against the league and Warren G. Harding were for it, I as a Democrat would support Harding because I know that the future rests more on a settlement of this basic question than any other. I would break every party tie on earth and stand for the principle of this league.

"There are times," the speaker added, "when issues must transcend political parties. If ever there was a time in history when the voices of partisan politics should be stilled, this is one of them.

"Women hold the balance of power in this election. A grave responsibility rests upon them. They have got to make a decision as to whether the United States is going to unite itself with the other nations of the world to prevent war, or whether it is going to throw aside the fruits of victory and return to the old order which led to war in the past and which will lead to war in the future."

SHOT PROVES FATAL TO ALFRED DOSS

Inquest at 8 O'clock Tonight by Coroner T. M. Jones

MANY WITNESSES

Doss Shot by Detective Shamrock at Potomac Yards Yesterday—Died at 9 O'clock Last Night at Hospital.

Alfred Doss, colored, who was shot by a stray bullet from a pistol in the hands of Special Detective P. A. Shamrock, which occurred yesterday morning at the Potomac Railroad yards, died shortly after 9 o'clock last night at the Alexandria Hospital. Dr. T. Marshall Jones, coroner, tonight at 8 o'clock will hold an inquest over the body of the deceased.

The jury will first view the body at Gray's undertaking parlors and afterward go to Wheatley's undertaking chapel and hear the evidence in the case.

A large number of witnesses have been summoned to testify in the case among whom are many employees of the yards.

Officials of the railway company claim that Shamrock pulled his pistol for his own safety following an altercation at the pay car yesterday morning between a railroad employee and one of the special detectives and that a general mixup followed resulting in one employee of the road being struck by a special officer, that after Shamrock pulled his weapon an effort was made to wrench it from his hand by the crowd gathered about him and that in the scuffle for the possession of the weapon it was discharged and the bullet entered the back of Doss' head. Doss was an innocent bystander and is no manner connected with the mixup.

Following the shooting Shamrock was taken to the county jail on Fort Myer Heights by Sheriff Clements, being turned over by the railroad people.

Shamrock will tel his side of the story to the coroner's jury tonight. Shamrock is about forty-five years old and a native of California. During the war he served sixteen months overseas in the Canadian army and for several months has been employed at the Potomac yards.

Doss leaves a wife and two children. He lived at 510 North Columbus street.

The jury summoned is composed of the following: R. Theodore Cook, Walter P. Cline, William Baader, Herbert C. Knight, F. W. Latham, Hunt Russell.

Coal Shortage Danger Passing, Operators Say.

New York, Oct. 14.—There will be no serious bituminous coal shortage in any part of the country this winter, provided ordinary care is exercised by consumers, it was predicted here yesterday at a conference of the National Coal Association, which comprises two-thirds of the bituminous coal producers of the United States.

The coal operators, however, declared that in order to keep the markets supplied steady work at the mine and a sufficient supply of railroad cars also would be required.

At this time, it was stated, bituminous operators were getting only about 25 to 30 per cent. of the open top cars needed.

A special committeee which has been working with various co-operative agencies to prevent a winter fuel shortage, reported that the Interstate Commerce Commission railroads, big coal dealers and others were co-operating to increase production and improve transportation and distribution facilities.

CHAMPAGNE FLOWED FREELY AT G. O. P.

Chicago Probers Want to Know Who Drank 5000 Quarts

PROBE WHISKY RING

Announcement of Government's Case Causes Sudden Disappearance of Two Witnesses.

Chicago, Oct. 14.—An effort to learn who drank the 5,000 cases of champagne withdrawn from bond during the Republican convention under medical permits and sent to a leading Chicago hotel which was jammed with G. O. P. convention guests, promises to be one of the interesting developments of the $1,000,000 whisky ring probe which is on in this city.

Prohibition Commissioner Kramer, in Washington, does not believe the Republican nominating gathering called together such a collection of invalids as to justify the consumption of that much liquor for medical purposes. The report on medical permits for June shows that Chicago was suffering from a plague or something. Plain booze was not efficient enough. More champagne was used for medicine in two weeks during the Republican convention than in the whole preceeding year.

As a result Mr. Kramer, it is said, has taken the issuance of medical permits for the use of liquor entirely out of the hands of regional dry law officials. Such permits in future will be issued from his office in Washington.

The premature announcement of the Government's case against the ring made here yesterday, has caused the disappearance of two of the most important Government witnesses, Frank D. Richardson, special Federal investigator, said today.

Judge K. M. Landis denied today a report that he would call a special grand jury to hear the Government's evidence and Charles F. Clyne, United States District Attorney, announced that all liquor cases now pending would be taken care of by the regular grand jury. According to Mr. Clyne, he now has sufficient evidence to ask indictments. Eleven men have thus far been named as leaders in the national shipment of contraband liquor on forged permits.

Mr. Clyne today assumed charge of the investigation. He began checking the confession of A. H. Sadler, New York stock broker, whose admission of the existence of the ring gave Federal authorities the first specific grounds for their case. Clyne said he doubted Sadler's allegations that men in high political office were implicated.

Sadler today appealed to Federal agents for protection saying his life had been threatened. He is being kept in hiding.

New York, Oct. 14.— Frank L. Boyd, supervising prohibition enforcement agent for New York State, has received orders from Federal headquarters in Washington to investigate the reports of the existence of a "curb market" in contraband liquor in the Bowery, it was learned today.

Pressed for confirmation of the reports, Mr. Boyd admitted he had heard about the matter.

According to published reports, the traffic in liquor in this section has become so thriving that the bands of bootleggers engaged in supplying saloons and speakeasies have hit upon the plan of modeling their market after the curb market of the financial district, in order to facilitate transactions.

Within a short distance from police headquarters large transactions in liquor are said to have been made, the actual supplies being kept elsewhere in trucks ready for immediate delivery. The market is said to be open from late evening until the early morning hours, and the brokers change its location occasionally in order to avoid detection.

THE LEE HIGHWAY.

The City of Alexandria is to be congratulated on the unanimous action taken at the joint meeting of the two bodies of the City Council Tuesday night, when it was agreed to guarantee half the interest on a possible bond issue of Fairfax County, having for its object the building of the longest and most important unfinished link in the Lee Highway from this city to Winchester.

It is to be hoped that the voters of Fairfax County will authorize this bond issue at the election in November and it is the opinion of those familiar with conditions in that county that there would have been very little likelihood of this having been possible if Alexandria had declined to join them in this undertaking.

It is possible that the authorities of Fairfax County will be able to work this matter out in a way that will require none of this interest, or only a small part of the amount over a short period, but if it is necessary for us to pay the full amount over the full period it will be found that the out-lay is one of the wisest which could be made when it is borne in mind that it connects this city up with the richest farming section of Virginia by a splendid highway which will become a part of the State Highway system and be maintained by the state.

As has been stated in these columns many times, any movement which has for its object the cheapening of our food supply or the bettering of our living conditions is vitally important and it is to be sincerely hoped that the action of City Council will result in bringing this splendid agricultural section to our door.

THIS LEAGUE OR NOTHING.

Mr. Harding started out to carry water on both shoulders. He was with Taft for the League. He was with Borah against it. Borah gave him a nudge, an he spilled water from one shoulder. Then he got scared at the defection of Republicans who want to prevent war, and straigtened up and spilled water from the other shoulder.

Nobody can have the least respect for a man who is constanly shifting and explaining in an effort to hold the support of men who want diametrically opposite things. Borah and Johnson will have no League at all. Taft wants a League, and would have voted for ratification of the peace treaty without reservations had he been a Senator. Mr. Harding can't retain public respect while he is playing fast and loose in a struggle to satisfy both sides.

For three months Mr. Harding was opposing a League that had a Democratic mark, but he was in favor of a League with a Republican mark. Borah got tired of this thing and bolted. Then Harding was scared, and in Des Moines he kicked the whole League out of his program. The spectacle of Republicans who want a League deserting him frightened him, and now he has taken his fourteenth and fifteenth position, and promises an association of nations to do what the League would do.

If his association will not bind the United States to co-operate with other nations in the prevention of war it will be absolutely worthless. If it will bind the United States to such action, then it is no better than the League now in existence.

Mr. Harding can't get the United States into the association he talks about, because there are no other nations to join us in it. All the other nations are in the existing League, created under the peace treaty. No nation is going to leave the League it has joined and unite with us in Mr. Harding's Association, which will not use armes if necessary to enforce peace. There are no nations left for the United States to unite with except the nations defeated in the world war, who will get into the present League as soon as they will be admitted, and Russia and Mexico. Besides Russia and Mexico we might have the company of Turkey and Bulgaria. Germany would not join Mr. Harding's association; it is already knocking at the door of the League of Nations.

The United States, anarchist Russia, and Mexico, with the possible additions of Turkey and Bulgaria, and perhaps Persia and Alfghanistan, are all the nations left for Mr. Harding's association.

Let no American make a mistake about this. We can join the existing League, or we can stay out, but we can't get up an "outlaw strike." We can't have Mr. Harding's association of nations, bound to nothing whatever, because there are no civilized nations left, except the beaten ones, to join us. It is the League of Nations created at Versailles or it is nothing.

WOMEN WILL BACK GOOD MEN.

"Vauxeleuse"
Oct., 14, 1920

To the Editor of the Alexandria Gazette.

My Dear Sir:

The writer is somewhat in the position of the small boy who mothers in fact, but potential, idealistic, unselfish, seeing beyond personal interest to an extent we mothers in the flesh can rarely claim. Incidentally, the "old maid" has also passed, with the wheedling process, into history.

Soon the wheedling will be the other way—and then—because men are so nice, and we are fond of them—we will be beguiled to dance to their piping, unless we walk warily! Those who never raised a finger to help the cause of suffrage, will be there to advise how this hard-won right can be used—so we will just bear in mind the words of the most masculine and virile of all American poets, Walt Whitman,

"Unfolded out of the folds of the woman's brain
Comes all the folds of the man's brain,
Duly obedient;

A man is a great thing on the earth
And through eternity—
But every jot of the greatness of man
Is unfolded out of the WOMAN."

Alexandria has a good mayor, and many good officials, and a good representative in Congress, and these men will be sustained by women, not because they belong to what Senator John Sharpe Williams calls "the poor, dear, old Democratic Party" or any other party, but because they are good men.

Women will switch around just as the notion strikes them, and politicians will have a merry time rounding them up. Women will expect their representatives to do what is right because it is right, and at the right time, not waiting to see which way the wind blows, or to find out what other people are going to do, or think, or say, about it or them. The time has come to play ball.

Oratory and promises will not buy them, and mud-slinging will not scare them. They are accustomed to ridicule and have little fear of it. Their destiny is Pain, and they know how to endure. When they start out to clean things up, they will clean things up, and the confusions and reactions incident to their inexperience will soon pass by, but the service they will render their country will endure, because it will be unselfish and sincere.

MARIETTA M. ANDREWS

Thirty years ago today Mrs. Marietta Minnegerode Andrews petitioned the city school board for permission to start a free art school in the rear of the old Peabody school building at King and Alfred streets and Mrs. Andrews with Miss Catherine Critcher, both being connected with the Corcoran Art Gallery at the time for a long time successfully taught free of cost young Alexandrians, boys and girls at this school. An interesting clipping from the Gazette of that day tells of Mrs. Andrew's purpose to aid free of cost those having a talent for art—Ed.

EDITORIAL PAGE OF THE ... WHY PISTOLS ARE GIVEN OFFICERS.

(Communicated.)

Judge David Crockett Richardson, of Richmond, some time ago gave his opinion of the reason why, and under what circumstances an officer was justified in using his pistol.

In this opinion he deplored, and severely condemned the indiscriminate use of a gun by officers. The gist of his opinion was that an officer was only justified in the use of the gun to apprehend an escaping felon, or to protect himself when his life was really in jeopardy.

We have in many instances recently had brought to our attention where men vested with a little authority, have by their actions shown how little they regard the right of the individual, and without regard (either wilfully or through ignorance) to the law which they are supposed to uphold.

Yesterday in a crowd of hard working, honest men, over an altercation (no struggle or violence) one of these psuedo officers appointed by a big corporation, deliberately pulled his gun, and snuffed out the life of a poor inoffensive law abiding hard working negro.

Had this have been one of the white men, the probabilities are that this "brute" would have been lynched. Now the writer is a law abiding citizen, and deplores lynch law, but when men are allowed to kill indiscriminately and escape with a light or no sentence at all, the public is justified in taking the law in their own hands, and exacting an eye for an eye, and a life for a life.

JUSTICE.

NEW CAUSE FOR DIVORCE

Atlantic City, N. J., Oct. 14.—"If I were making the laws of this country, I would make it a cause of divorce if the wife didn't read the newspapers."

Thus spoke Judge Horace Stern, of Philadelphia, today, in an address on "Suffrage and the Woman" before the Council of Jewish Women who are holding their first gathering of the year here.

"It's such a wonderful thing," continued Judge Stern, "to have the news served up to you every morning at the breakfast table, news gathered from all over the world, and it would seem to be criminal indifference to neglect knowing the serious things going on in the world."

Hoop-la

Think of it, new baked bread, cakes, cookies and pies. You can just smell them. Think of the times you robbed the cookie jar. Think what it means to know that you have a range that will give you a positive one-third to one-half fuel saving.

Cole's Sanitary Down Draft Range

It is equipped with

COLE'S HOT BLAST

Fuel Saving System

of combustion. This gives you a saving of one-third to one-half on your fuel. Burns the fuel gases that other makes of ranges waste and carries a broad sheet of clean flame under all six lids and entirely around the oven. This means even cooking and baking results. Even steady heat—not a flashy wasteful one. Holds fire over night. Gas tight—rust proof vitreous enameled linings. This range will outlast any range on the market and will pay for itself in fuel saved. Furnished in blue or gray enamel or plain black. A beauty from start to finish.

Bank Robbers Get Fortune In Jewels.

Danville, Va., Oct. 14.—Sheriff L. W. Rice, of Halifax County, admitted yesterday that jewelry to the value of several thousand dollars was taken from safety deposit boxes in the vault of the Bank of Halifax robbed by yeggmen at Houston early Tuesday morning. Prominent women of Houston, he said, had lost diamonds and these valuables are not covered by the policy of burglar insurance which the bank president says covers the loss in money.

A colored woman, who slept near the bank, and prisoners in the county jail 100 yards away questioned yesterday, all said they had not heard any noise the night the vault was blown. The only clue to the robbers is the make of the strange car in Houston on the night of the theft.

Rate War Declared On French Liners.

The Shipping Board and all other steamship interests have declared "war to the knife" against the French Line, which has refused to enter into a conference on Atlantic freight rates between American and European ports, it was announced yesterday.

"The French Line has notified shippers that it would cut rates," said Admiral Benson. "Unless it returns to the fold and plays fairly there will be no limit to the rate war."

All steamship freight traffic from North and South Atlantic and Gulf sea ports to French ports and to Antwerp, Rotterdam, Hamburg and Rremen is affected. The French Line is thus brought into a war with the International Mercantile Marine.

Japan Now "Cooled Down' On California Agitation.

Tokyo, Oct. 14.—The California agitation here has practically ceased and is generally discussed less and more sanely and moderately. Previous agitations here have been more or less inspired.

The government throughout has cautioned moderation and repression, but, underneath, public feeling is extremely sensitive and easily inflamed. The steam has been let off and there is confidence that when the referendum is passed no demonstrations will occur of a character dangerous to international relationship.

French To Quit Erin, Report Says.

London, Oct. 14.—Newspaper dispatches here yesterday said it was understood Lord French will resign shortly as Lord Lieutenant for Ireland. Ill health was given as the cause.

Your Credit---How About It?

There Are Three Ways In Which Credit May Be Secured--- By the Deposit of Collateral, by Notes Endorsed by People of Means and on the Honor of the Person Who Desires Credit

Credit is one of the biggest factors in promoting success in the commercial and manufacturing world as well as in private life. To the merchant—or manufacturer—who wishes to expand, credit is of far more importance than capital. They realize its worth and are extremely careful in seeing that nothing should impair same. In the case of individuals, credit is of equal importance to them tho it may not be used as often or to the extent that it is used by those who are in business. A man, or woman, who will permit outstanding accounts to accumulate and go for an indefinite period without paying same, is on the rapid road to bankruptcy. Perhaps not in the same way that a business man would be who did not pay his obligations, but the withdrawal of credit is bound to follow and means the same to an individual who does not pay his bills as bankruptcy does to the business man.

CREDIT---When You Desire Same, How Do You Secure It? Is Your Word Good, Must You Give Security or Have Some One Vouch For You Before This Desired Accommodation May Be Secured?

It is our purpose only to deal with that class of credit that is extended by man to man simply upon honor and because of the faith of one in the other. Where credit is obtained, by reason of security of some description being given, the obligation is usually met and if it is not, the one who extends the credit does not lose by reason of the security given for the purpose of obtaining the accommodation.

A debt of honor should never be allowed to bring dishonor. In the days of old, men were willing to lay down their lives if need be, rather than permit dishonor to come by reason of their failure to make good debts of this character.

When a merchant extends credit to an individual upon solely the agreement to pay, he should take no more chance than when he is dealing with the person of resource and who is thus "good" as the saying is. He should be as fully protected by the honor of his debtor as he is by the means of the other. The persons who recognize the importance of meeting their obligations and who do not let them go unpaid, have a reputation for honesty and the payment of bills that is an asset of great worth. The promptness with which they meet their obligations becomes a matter of record which grows stronger and stronger day by day.

Those who willfully resist the efforts which their creditors make to collect their accounts also gain a reputation that grows as rapidly, if not more so, than does that of those who are prompt payers.

In this city, as in the majority of all other progressive cities, there is a credit association and which is made up of the business men of the city. This organization is not a menace to any person who is honest. Its influence is directed against those who would go from store to store, obtaining all the goods which they can secure upon their word to pay and with no intentions of paying for some.

In the office of the association, it might be said is an honor roll and a dishonor roll. On the honor roll will be found the names of those who ask for credit and incidentally secure same by reason of their record for honesty. On the roll of dishonor, will be found the names of those who do not meet their obligations. Great care is used in investigating carefully before names are entered upon this roll. It must be proven conclusively that they persist in refusing to pay for their purchases before they are classed among those who are not worthy of credit.

A debt of honor, whether it is for a pound of beef steak, a suit of clothes, a furniture purchase, or for articles, or services, of any description should not be treated lightly. It should be recognized as a just claim and worthy of prompt attention in every case if one's credit is to be maintained.

It Is Your Duty to

Pay Your Bills

Make it a point to pay promptly at the agreed time. You and your creditor will both be pleased and will prosper financially.

Credit Is Not a Difficult Thing to Secure—It Can Also Be Easily Lost. Give Heed to the Manner In Which You Use It and You'll Continue to Enjoy Its Benefits

TAKING "JOY" OUT OF TONICS

Government Is Putting Curb on Patent Medicine Thirsts

Washington, Oct. 14. Many patent medicines offered to the public as "tonics" or under some other alluring designation, are going to lose their charm. The thousands of patrons who, since the Volstead Prohibition Enforcement law became effective, have become expert in diagnosing their own diseases and also in treating them with "tonics" are going to learn that their "favorites" will appeal in the future only as medicine, it was learned today from officials of the Internal Revenue Department.

The department report, it is said, will show a tremendous decrease in the number of permits obtained for the manufacture of patent medicines. After the prohibition law became effective patent medicines sprung up from every nook and corner. The originality of the productions, the wonderful effect produced by "a slight overdose" and the popularity of some of the brands became as by-words. If there is the slightest suspicion that the medicine may grow into a beverage a little of this or that is prescribed for the medicine and, say department officials, "it is possible, of course, to get drunk on witch haze but the man who tries this method two or three times is going to the hospital. The man who gets drunk on extracts also is in danger of illness. The same is true of patent medicines which are tonics.

COLLEGE GIRLS CHEER FOR WILSON, LEAGUE AND COX

Greensboro, N. C., Oct. 14.—During an address to the girl students of Greensboro College here yesterday by Mrs. James W. Longstreet, wife of the Confederate general, in which the League of Nations, President Wilson and Governor Cox were criticised, the students rose in a body, marched into the hall's and gave repeated cheers for the League, President Wilson and Governor Cox.

According to officials of the college, which is a Methodist institution, Mrs. Longstreet said she came here under the auspices of a Congressional Committee to talk on Americanism. Members of the local chapter of the United Daughters of the Confederacy later issued a statement condemning Mrs. Longstreet's action in delivering a political address before students of the institution.

ANOTHER REPUBLICAN DESERTS HARDING CREW

Philadelphia, Pa., Oct. 13.—Renouncing the Republican party because of its efforts "to put a tariff wall around the richest country in the world," its "money bunk," and the indefinite stand its candidate has taken on the League of Nations issue, Harrison S. Morris, member of one of Philadelphia's most prominent families and for many years president of the Wharton Steel Company, yesterday announced his intention of turning in for Governor James M. Cox, the Democratic candidate. Mr. Harrison, who is a noted author, editor, poet and art critic, has been a lifelong independent Republican. He declared that the issues of the Presidential campaign are so clear-cut and well-defined that there is nothing for conscientious independent Republicans to do but vote for Cox.

Sandy Springs Bandits Fail To File Appeal

Frederick, Md., Oct. 14.—Clarence F. Adams and John W. Mitchell, sentenced to the Maryland penitentiary for life for the murder of Francis M. Hallowell in connection with the Sandy Sring bank robbery, have started their sentences with no immediate hope of release.

Mitchell's attorney announced immediately after conclusion of the trial he would appeal. No appeal has been filed and the three-day limit allowed by law has expired.

Schwab Says Nation To Stay Prosperous.

Pittsburgh, Pa., Oct. 14.—The United States is not in "for any slump," and business conditions were never better, Charles M. Schwab, chairman of the Bethlehem Steel Corporation, said here yesterday.

"There are prospects for lower living costs in 1921 and big industries are not planning any general reduction in wages," said Schwab.

Condition of Greek King Is Reported as Critical

Athens, Greece, Oct., 13.—Only the strong constitution of King Alexander of Greece is relied upon by his physicians to bring him through the crisis of his illness, resulting from the bite of a monkey a short time ago. It was admitted at the palace today that the King had entered into the critical phase of his illness.

The Government, alarmed at the serious turn in the King's condition, today discussed the question of a regency and decided that the Council of Ministers would take up the task of administering the country in the event of the King's condition becoming worse.

Yesterday it was said at the palace that there had been little change in the condition of Alexander, over that of Sunday. His physicians at that time refrained from giving any concise statement, although there was no attempt to conceal the fact that the illness of the monarch was grave.

Today's statement, made at 1 o'clock this afternoon, was the first intimation that the physicians in attendance were relying only on the strong constitution of King Alexander, who is but 27 years old, to save him.

Flag Peary Put At Pole Found 400 Miles Off.

Copenhagen, Oct. 14.—American flag which Admiral Peary planted at the North Pole has been found 400 miles away, from its original geographical point.

After an expedition of sixteen months in the Artic regions, full of privation and hardships, Capt. Godford Hansen, leader of the Amundsen auxiliary, returned here yesterday. He stated that while laying food depots along the Amundsen trail he found, 400 miles from the North Pole, intact in the ice, the Peary flag.

Capt. Hansen believes Amundsen will be successful in his dash for the North Pole.
